Village of Bellevue New Housing Fee Report Year 2022

Introduction

2017 Wisconsin Act 243 requires all cities and villages with populations of 10,000 or more to prepare a New Housing Fee Report and Housing Affordability Report. Under Act 243, the New Housing Fee Report must identify the amount of any of the following municipal fees imposed on new residential construction, remodeling or development:

- Building Permit Fee
- Impact Fee(s)
- Park Improvement Fee
- Land Dedication Requirement/Fee in lieu of Land Dedication
- Plat Approval Fee
- Stormwater Management Fee
- Water or Sewer Hook-Up Fee

Process and Data Sources

This report was prepared by Planning staff for the calendar year ending December 31, 2022 using the adopted Village of Bellevue Fee Schedule, permit/development records maintained by the Community Development Department and adopted Village of Bellevue Ordinances. This report has been posted on the Village's website (www.villageofbellevuewi.gov).

Total Fees:		\$221,539.75

	Units	Fees
Total Fees (including addition/remodeling)		\$221,539.75
2022 Units (new construction only)	95	
2022 Fees per Unit (new construction only)		\$2,332.00
2022 Units (new construction and addition/remodeling)	134	
2022 Fees per Unit (including addition/remodel units)		\$1,653.28

As shown in the table, the average fee per permitted residential unit (including the remodeling fees, but not including the remodeling units), as specified under State Statute, is \$2,332.00 per unit. The average fee per unit when including both the remodeling fees and remodeled units is \$1,653.28.

In order to put Bellevue's fee per unit into perspective, according to the 2018-2022 American Community Survey from the U.S. Census Bureau, the median value of an owner-occupied home in Bellevue with a mortgage is approximately \$256,100. The commercial real estate site, Zillow, places the average Bellevue home value at \$345,000. By dividing the two fee per unit values by the high and low home values results in a range of 0.48% to 0.91% in added home cost due to Bellevue fees. To put it into greater perspective, the 2022 National Association of Homebuilders (NAHB) Construction Cost Survey identifies the following national average costs as a percentage of overall home cost: Finished Lot Cost 17.8%, Total Construction Cost 60.8%, Profit 10.1%, Overhead and General Expenses 5.1%, Sales Commission 3.6%, Financing Cost 1.9% and Marketing Cost 0.7%.¹

Conclusion

As shown above, permit fees do add a cost to the overall price of housing units within the Village of Bellevue. However, the permit fees are by no means out of line with other development costs as documented in the National Association of Homebuilders report. The relatively small average permit fees are in place to cover the time for Bellevue employees to properly review and plans and inspect the new or remodeled homes to ensure they meet the adopted building codes. The Village's park impact fees are used to pay for the development of park and recreation facilities throughout the Village, as governed by Section 66.0617 Wis. Stats.

This report was prepared in order to meet the requirements enacted by 2017 WI ACT 243 in Wis. Stat. 66.10014. As such, it does not include the most significant costs of residential development, including the cost of land, cost of infrastructure, cost of labor, and cost of building materials.

Disclaimers

- Wisconsin Permit Seal, erosion control, curb cut and excavation in the right-of-way fees are included within the new Single-Family, Two-Family and Multi-Family building permit fees.
- Electrical/HVAC/Plumbing permit fees are charged but are based upon the number of fixtures or square footage. Therefore, the specific design of a new dwelling determines the permit fee to be charged. Wis. Stat. 66.10014 does not require reporting of Electrical/HVAC/Plumbing fees.
- The Village of Bellevue exercises Extraterritorial Jurisdiction over land divisions in the Town of Ledgeview and Town of Eaton, so not all plats and CSM's involve projects within the Village Limits.
- Additional fees that may apply to new residential construction can be found on the Village of Bellevue's Fee Schedule in Exhibit A.
